

Industrial Roller Shelf Gravity Pallet Racking For Maximum Storage Capacity

Our Product Introduction

for more products please visit us on warehouse-rackings.com

Basic Information

Product Specification

- Model NO.: QF-Gravity Pallet Rack
- Material: Steel
- Structure: Rack
- Type: Pallet Racking
- Mobility: Fixed
- Height: 5-15m
- Weight: 100-1000
- Closed: Semi-closed
- Development: New Type
- Serviceability: Common Use
- Color: Customized
- Lead Time: 20 Days
- Raw Material: Q235B
- Surface Treatment: Galvanized/Powder Coating
- Transport Package: Standard Export Packing

Product Description

Industrial Roller Shelf Gravity Pallet Racking For Maximum Storage Capacity

Product Description

QiFei Gravity Pallet Racking:

Working on a first-in,first-out basis, **Gravity Pallet Racking** provides extremely high levels of storage density in a given area. Pallets are loaded onto dedicated lanes of inclined gravity rollers which are set at a fixed gradient. When a load is taken from the picking face,the next pallet rolls into position, with replenishment stock loaded at the opposite (upper) end of the lane. Stock rotation is therefore automatic with the minimum of fork lift truck movements. It is used for storing large quantity of goods of the same kind. And full use of the space can be made.

Features of Gravity Pallet Racking:

1. **Full space utilization:** Save your space 60% compared to normal rackings.
2. **Efficient:** Enhance the efficiency of logistics operation, save your time .
3. **Economical:** save your space and enhance efficiency.
4. **Convenient:** Easy to operate ,no necessary need for regular maintenance ,durable and reliable.
5. **Safe:** Absolute safe, protect goods from destructed . Most suited for vulnerable goods.
6. **Widely used in Food Industry, Medical Industry, Drink Industry, Chemical Industry and so on.**

Required information for quote

- 1, The AUTOCAD drawing or draft drawing of warehouse or racking.
- 2, Length, Height, and Width of the warehouse.
- 3, Layers of the racking
- 4, Pallet size.
- 5, Max weight of pallet with cargo on.
- 6, Color requirement.

Detailed Photos

By using roller system or pallets with roller and under the influence of gravity
"first in and first out" for the goods is achieved

The surface is sprayed with thermo-setting powder, which is beautiful and elegant

The installation and connection of the upright post and the cross beam are simple and stable.

When the baffle is tilted, the goods at the end are separated from the goods behind.

The frame and roller are easy to install and adjustable.

The goods slide smoothly without deviation.

Adjust the sliding speed of goods through the pull rod.
